

Acidoxy-San™

C.I.P. Acid Sanitizer

Acidoxy-San is an EPA-registered C.I.P. acid sanitizer that significantly reduces the number of bacteria in the milking system. This new generation, no rinse, one-step acid sanitizer is for C.I.P. and C.O.P. pipeline, silo, tank, and equipment cleaning and sanitizing processes.

Features and Benefits

- **Registered Sanitizer**

Registered in the U.S.A., under stringent EPA guidelines, to ensure the thorough sanitization of milking equipment for optimal milk quality. Acidoxy-San is listed as a sanitizing and cleaning combination for non-food contact hard surface cleaning, or other uses, including: sanitizing bottle rinse, food processing sanitizing and cleaning (creamery, cheese plant).

- **Sanitizing Power**

Acidoxy-San provides an even stronger oxidizing potential than Chlorine or Chlorine dioxide. The equilibrium mixture of Peracetic acid, Hydrogen peroxide, Acetic acid, and Nitric acid makes Acidoxy-San a powerful sanitizing combination. With regular use, Acidoxy-San will prevent the formation of milkstone and lime scale deposits. It also has an excellent bactericidal and fungicidal activity against a wide range of organisms.

- **AOAC Proven**

Acidoxy-San passes the AOAC Sanitizer Test (for hard surface cleaning) by reducing 99.999% of target microorganisms within 30 seconds.

- **Contains Nitric Acid**

The Nitric acid in Acidoxy-San makes this a very unique C.I.P. acid sanitizing formula. Nitric acid helps prevent mineral scaling.

- **Versatile and Streamlined**

No rinse is needed on food/beverage contact surfaces. Acidoxy-San reduces C.I.P. process times and reduces water use. It also can be used in either warm or cold water.

- **Environmentally Friendly**

Acidoxy-San contains no phosphates. The peroxygen chemistry of this formula leaves no residue. It breaks down easily after use – ultimately, it will degrade to Nitrogen, Oxygen, water, and Acetic acid (vinegar). For land applied discharges, the nitric component reverts to Nitrogen to support plant growth.

- **100% Customer Satisfaction**

All GEA Farm Technologies hygiene products have a 100% Customer Satisfaction Guarantee.

Acidoxy-San™

C.I.P. Acid Sanitizer

Directions for Use

Consult your GEA Farm Technologies dealer or hygiene specialist for specific recommendations to ensure proper use and performance of this product.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product passes the EPA food contact sanitizer test for previously cleaned, hard, non-porous food-contact surfaces (AOAC Germicidal and Detergent Sanitizing Action of Disinfectants) against *Staphylococcus aureus* and *Escherichia coli* when used as recommended.

Product Properties

Appearance:	Colorless liquid
Odor:	Sharp, pungent, vinegar-like
pH:	<1.0 (10% solution)
Specific Gravity at 77°F (25°C):	1.02 (water = 1)
Solubility:	Complete at recommended use dilutions

Ordering Information

U.S. (only)

SKU	Description
7751-0040-641	Acidoxy-San - 5 gal. pail (4.5 gal. fill)
7751-0040-642	Acidoxy-San - 15 gal. drum (13.0 gal. fill)
7751-0040-643	Acidoxy-San - 55 gal. drum (52.0 gal. fill)
7755-1000-337	Acidoxy-San - Literature (pkg of 20)
