

PRODUCT DESCRIPTION Formulated liquid acid detergent for the Lely Astronaut™ robotic milking system.

BENEFITS Promotes Quality Assurance

- ▲ Non foaming acid cleaner for CIP cleaning. Only to be used for cleaning the Lely milking robot system.
- ▲ Excellent cleaning properties for mineral deposits.
- ▲ Foam inhibited wetting agents for fat and protein removal in an acidic environment.
- ▲ Easily soluble in cold and warm water.

Material Compatibility

- ▲ Will not affect rubber and silicone liners and milk tubes due to special corrosion inhibitors.
- ▲ Applicable in combination with stainless steel, steel, rubbers and synthetics Extensively tested on materials of Lely Astronaut robotic milking system.

PROPERTIES	Form	Liquid	pH (Conc. (%w/w) 100%	0.3
	Color	Red	Spec. Grav. @ 68°F (20°C).....	1.194
	Odor	Pungent	Foam	None

DIRECTIONS FOR USE ASTRI-CID should be used at a concentration of 0.5% : 64 oz per 100 gallons (5 mL/L) of warm water.

The recommended temperature range should be 100-77°C (212-170°F).

Apply an alkaline wash of ASTRI-LIN twice daily, and an acidic wash of ASTRI-CID at the recommended concentrations and temperature.

Rinse with potable water.

Consult your Ecolab Representative for specific use instructions and recommended dispensing equipment.

For cautionary and first aid information, consult the Material Safety Data Sheet (MSDS) or product label.

STATEMENT OF ASSURANCE This product is effective under the intended conditions of use as outlined on the product label. All food contact surfaces must be thoroughly rinsed with potable water after use of this product. Avoid food contamination during application and storage.

Lely Astronaut, Astri-LIN and Astri-CID are trademarks of Lely.
