

IllumiCurb®

Parlor lighting where you need it!

Ensuring a clean and well-prepped udder is key to producing quality milk. IllumiCurb LED lighting is built into the curbing on a parlor and provides the important light you need to properly perform all the steps in the milking process.

Innovative design — patent pending (#13,291,469).

Adaptable — can be installed on any existing or new parlor.

Complete one-, two- and four-stall sections — accommodate all parlor size combinations. Modular design in 27" and 28³/₈" spacing. Other custom spacing upon request.

Rugged LEDs — LED boards are fully encased in a waterproof polyurethane. LEDs come from scoreboard industry and can stand up to parlor conditions.

Bolts to curb — easy to install.

LEDs are placed at 60° — with a viewing angle of 55° to allow for maximum light coverage and light output.

Low voltage (27 Volt DC)

30° angled straight curb - provides optimal working room.

Work area before illumination.

Work area illumination ensures better milking conditions.

Work area after illumination.
