

Liquatone™

Non-Iodine Udder Wash

Liquatone is a liquid, quaternary ammonium chloride product designed for use as an udder wash for fast kill of a wide range of bacteria.

Features and Benefits

- **Effective Germicidal Qualities**

Antiseptic qualities provide fast kill of a wide range of bacteria during pre-milking udder wash procedures.

- **Powerful Cleaning**

Aids in the quick removal of soils and bacteria from teats, decreasing the spread of mastitis-causing organisms.

- **Gentle on Teats**

Leaves cows' teats soft and supple for less irritation and improved cow comfort.

- **Balanced pH Formula**

Non-irritating to udder and teats when used as directed.

- **100% Customer Satisfaction**

All GEA Farm Technologies hygiene products have a 100% Customer Satisfaction Guarantee.

Liquatone™

Non-Iodine Udder Wash

Directions for Use

Udder Washing: Prepare a sanitizing solution by mixing 1/8 oz. (3.7 ml) Liquatone in 1 gallon (3.8 L) warm 110°F (43°C) water. Use a clean, single service towel for each cow. Wash and massage the teats and udder. Never dip used towel back into solution. Discard solution if visibly dirty. Prepare fresh solution for each milking. Dry teats and udder with a clean, single service towel prior to attachment of milking units.

DO NOT USE AS A TEAT DIP.

Product Properties

Appearance:	Clear blue liquid
Odor:	Mild
pH:	7.1 (1% solution)
Specific Gravity at 77°F (25°C):	0.99 (water = 1)
Phosphates:	None
Solubility:	Complete at recommended use dilutions)
